### Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

### **DETAILED ACTION**

1. This Office Action is in response to the Amendment after non-final and remarks filed on 10 /27/2006. Currently, claims 3, and 9-10 are pending.

#### ***Claim Rejections - 35 USC § 112***

2. Claim 3, and 9-10 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention.

Regarding claim 3, the limitation "wherein a lighting intensity level of each one of the light emitting elements is independently controlled with respect to the other light emitting elements;" recited in lines 9-10, and "a controller configured to adjust the light intensity level of the plurality of light emitting elements" in lines 11-12 do not appear in the specification. The specification appears only to have support for the limitation that deals with controlling the states of the light emitting elements and not adjusting intensity levels.

#### ***Allowable Subject Matter***

Claim 3 has allowable subject matter because the prior art fails to disclose or make obvious, either singly or in combination, an optical encoder, comprising, in addition to the other recited features of the claim, "a controller configured to adjust the

Art Unit: 2878

state of the plurality of light emitting elements independently with respect to the other light emitting elements." The portion of the limitation reciting "with respect to the other light emitting elements," implies that at least three light emitting elements must be used in the claim.

3. Claim 3 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, 1st paragraph, set forth in this Office action.

### ***Conclusion***

4. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
